PROFESSIONAL SUMMARY

Full-Stack Web Developer with strong expertise in React.js, JavaScript, TypeScript, Node.js, and SQL, specializing in building scalable, high-performance, and secure web applications. Proven ability to design clean, responsive, and user-centric interfaces, develop efficient backend architectures, and integrate RESTful APIs and databases to deliver seamless, reliable, and maintainable user experiences. Passionate about performance optimization, code quality, and modern web technologies.

EDUCATION

- Bachelor of Technology in Computer Science Engineering**

Chitkara University, Himachal Pradesh, India

2023 – 2027 (Expected)

CGPA: 9.67 / 10

TECHNICAL SKILLS

- Frontend:** React.js, Next.js, HTML, CSS, EJS
- Backend:** Node.js, Express.js
- Languages:** JavaScript, TypeScript, Java, C++, C
- Databases:** MongoDB, PostgreSQL, SQL
- Tools:** Git, GitHub, VS Code
- Cloud:** AWS (EC2, S3 – basic)

PROJECTS

1. Assignment Approval System — Node.js, Express.js, MongoDB, EJS, JWT July 2025 – Dec 2025

Designed and implemented a role-based assignment approval system using Node.js, Express.js, and MongoDB, featuring secure JWT-based authentication and authorization for admins, faculty, and students. Developed a robust admin dashboard using EJS, enabling user management, department management, and assignment lifecycle management, along with secure file uploads, email automation, and real-time status notifications. Improved assignment tracking, approval workflows, and operational efficiency by centralizing submissions, role-based access control, and status updates within a scalable backend architecture.

2. Real-Time Chat Application — Node.js, Express.js, Socket.io, MongoDB Oct 2025 – Present

Built and working on a real-time one-to-one chat application using Socket.io and Node.js, enabling instant message delivery, low-latency communication, and live user presence tracking. Implemented secure authentication and session management using Express.js and MongoDB, ensuring private, reliable communication without page reloads. Designed and developed RESTful APIs for user management, and integrated real-time UI updates using WebSockets to deliver a smooth, responsive user experience.

CERTIFICATIONS

- | | |
|--|----------|
| • Participation Certificate – Artificial Intelligence and Machine Learning Training Sessions | 2025 |
| • Infosys Springboard Certification – Database Management Systems (DBMS) | Oct 2024 |
| • Network Fundamentals Certification By -Infosys | Oct 2024 |

ADDITIONAL INFORMATION

- Actively practicing Data Structures and Algorithms (DSA) in Java to strengthen problem-solving skills
- Currently learning AWS Cloud Services and backend system design fundamentals for building scalable systems
